Our Clients include:

“It is never easy for people to articulate what they want, and in some cases people are not sure what they really need. The traditional approach would have made it all too long winded. Adopting the 6pm Delivery Framework was a relatively inexpensive process that has now enabled us to adopt a consistent approach that allows us to be more flexible in our approach to project delivery. The methodology quickly became the ‘RICS approach to delivery’ and this new ‘way of thinking’ has been implemented and embraced across various areas of the business at RICS.”

...and what they say

“Although our partnership with 6pm is relatively young, their contribution to our IT operations has already been very significant. Their Business Objects expertise, flexible and dedicated approach to our current challenges has allowed us to quickly improve our IT service. We view the 6pm team as a part of Shanks’ IT set up and they are now working with us, helping to formulate and implement our business information strategy for the future.”

The 6pm Charity Foundation

The 6pm Charity Initiative was set up in early 2007 and the Foundation formerly registered in 2008. The 6pm Foundation has been set up to provide sustained and substantial support to underprivileged children and families in Malta and in the UK.

6pm has a long history of working at the community level to provide support for many worthwhile causes. Our goal is to focus our resources smartly and strategically and ensure that the work we do connects closely to our company and its values, and most importantly, adds value to the communities in which we do business.
